

LINE CARD

- ✶ **3G LIGHTING** Canadian contemporary architectural lighting fixtures for hospitality, commercial and residential applications.
- ✶ **AIMLITE** Canadian manufacturer of emergency lighting equipment, exit and special wording signage, inverters, photo luminescent safety products, interior and exterior LED, HID and fluorescent lighting fixtures.
- AMBIANCE** High quality, customizable lighting solutions at an affordable price for lighting specifiers and consumers alike.
- ✶ **BARBICAN** Barbican is one of North America's leading manufacturers of energy efficient commercial, industrial lighting solutions.
- BEGA** Contemporary exterior architectural lighting made with German precision, quality and performance.
- ✶ **BETA-CALCO INC.** A Canadian architectural leader of contemporary design, superior quality and continuous innovation.
- BIRCHWOOD LIGHTING** Manufacturers of modern architectural luminaires, cove lighting, display case lighting, and specification grade strip fixtures
- B-K LIGHTING** Industry leading LED technology for specification grade landscape lighting.
- BROWNLEE LIGHTING** Functional, affordable, and energy efficient decorative lighting for residential and commercial applications.
- ✶ **COOL EDGE** Cooledge has created a range of lighting products that can be measured, cut, sized and integrated into the fabric of any environment in much the same way conventional building materials function today.
- DIGITAL LUMENS** Pioneer of next-generation LED lighting solutions, including the first intelligent Lighting System to combine LED's networking and software into a single integrated system.
- EATON LIGHTING**
 - AMETRIX** Asymmetric indirect luminaires. Wall/Ceiling, Suspended, Semi-recessed and Cove mountings. LED, Tungsten, Halogen, Metal Halide and Fluorescent lamp sources.
 - CORELITE** Specification grade steel and extruded aluminum recessed, linear indirect and direct/indirect suspended luminaires utilizing LED and fluorescent sources.
 - EPHESUS** Revolutionary ultra-high performance LED sports and industrial lighting. Ephesus glare control, ability to maintain correlated colour temperature (CCT) and colour rendering (CRI), have allowed Ephesus to be installed in more than 100 top-flight sports stadiums in North America.
 - FAIL-SAFE** Medical, vandal resistant, maximum, medium and minimum security luminaires.
 - FIFTH LIGHT** Distributed addressable lighting control products and solutions which allow for unique lighting management, thus allowing the end user, facility manager and the environment all to reap huge benefits.
 - GREENGATE** Occupancy sensors using infrared, ultrasonic, acoustic, and dual technology. Architectural low voltage lighting controls utilizing a full range of master controllers.
 - HALO** Recessed, track, surface and architectural down lighting for hospitality, commercial, residential, retail, institutional applications utilizing LED and all other sources.
 - ILUMIN** Architectural lighting controls that offer highly intuitive user interfaces and source controllers that include most standard features and a streamlined process.
 - INVUE** Architectural outdoor lighting solutions, including area/site, wall mount and floodlighting.
 - IO LED** Energy efficient LED luminaires for interior and exterior applications. Surface, recessed, solution linear point source and illuminated hand-rails.
 - IRIS** Spec grade residential and commercial down lighting with unsurpassed optical performance.
 - LUMARK** Commercial and industrial products for indoor and outdoor LED and HID lighting needs.
 - LUMIÈRE** Innovative architectural and landscape solutions for complex landscape, area/accent and special applications
- MCGRAW-EDISON** High performance LED and HID luminaires for exterior, utility, commercial and industrial applications.
 - METALUX** Specification and commodity grade commercial and industrial LED and fluorescent lighting products.
 - MWS** Modular commercial and industrial wiring for fixtures and power distribution.
 - NEO-RAY** Architectural specification grade linear direct/indirect pendant, surface, perimeter and recessed luminaires.
- PORTFOLIO** Specification grade, performance point source luminaires in LED, Fluorescent, HID, Low Voltage and Incandescent lamping available.
 - RSA** Cutting-edge, architectural lighting systems. Multi-lamp, recessed, track and linear lighting.

LINE CARD

- SHAPER** Architectural interior and exterior lighting, including modifications and custom solutions.
- STREETWORKS** Outdoor LED and HID solutions for municipal, utility and commercial markets.
- ZERO 88** Lighting control desks and software for theatrical and entertainment.
- ELP** Manufacturer specializing in video teleconferencing, cove, stack and wall washing applications.
-  **FLUXWERX** Canadian manufacturer of innovative ambient lighting with a balance of design and performance for people and architecture. Synthesizing industrial design, world-class optical engineering and LED technology.
- G LIGHTING** Over 100 years of experience crafting House of Worship, Exterior, LED and Pendant style luminaires.
-  **HCI LIGHTING** Canadian manufacturer of site lighting, decorative poles, and site improvement products.
- IGUZZINI** Award winning architectural Italian lighting for both interior and exterior applications.
- IVALO COLLECTION BY LUTRON** Modernist light fixtures of exceptional quality and function. Designed as architectural elements that are solutions to design problems.
-  **J2 LIGHT** Canada's J2 Light Inc. has designed and manufactured unique and affordable T5 and LED lighting systems since 2005.
- LBL LIGHTING** A premier choice for specifiers and savvy, design-inspired customers, offering captivating styles which enhance and define today's contemporary and modern décor in residential and commercial settings.
- LED LINEAR** German engineered modular LED lighting for interior or exterior linear applications with an ingress protection rating of up to IP68 utilizing Japanese best-in-class LED technology.
- LIGHTING SERVICES INC.** Premier manufacturer of track, accent, display and LED lighting systems since 1968.
- LIMBURG** Hand-blown three-ply opal glass and cased glass luminaires for interior spaces from Belgium.
- LOUIS POULSEN** Pure and timeless Scandinavian lighting using a philosophical balance of function, comfort and ambience.
-  **LUMENPULSE** Canadian manufacturer of architecturally relevant sustainable LED interior and exterior luminaires.
- LUMETTA** Hospitality, interior design and architectural focused dynamic line of ceiling, wall, table and pendant fixtures.
- LUTRON CONTROLS** Residential and commercial industry leader in lighting controls providing: sensors, stand-alone controls, single-room controls, whole home systems, entire building systems, LED drivers and architectural lighting solutions.
- LUTRON SHADE CONTROLS** Automated window treatments for both Residential and Commercial applications. Optional solar adaptive shading to control shades in response to the position of the sun. All shades utilize whisper quiet low voltage drives providing the ultimate in performance, convenience and energy management.
-  **MAGIC LITE** Magic Lite is a leader in architectural and decorative lighting focusing on the latest in LED, fiber optics and traditional lighting products.
-  **MP LIGHTING** MP Lighting specializes in manufacturing specification-grade architectural LED fixtures, as well as Low Voltage, Line Voltage, and Multi-Circuit Track Systems.
- PATHWAY LIGHTING** Manufacturer of sustainable performance driven LED downlights, architectural pendant LED lights, decorative recessed and surface mounted luminaires.
- PRUDENTIAL LIGHTING** California based architectural lighting focusing on green solutions and innovative designs.
-  **SISTEMALUX** Canadian manufacturer with exclusive European based interior and exterior designs.
- TECH LIGHTING** An industry leader in low-voltage lighting systems and contemporary decorative fixtures. Innovative, original design and uncompromising quality.
- TEKA ILLUMINATION** Elegant and sustainable indoor and outdoor luminaires, made with copper, bronze, and Stainless Steel.
- THE LIGHT EDGE** Specializing in LED and T5HO, TLE uses highly-tooled precision aluminum extrusions to create the absolute best-in-class products for gymnasiums, arenas, community centre's, manufacturing areas and warehouse facilities.
- VISA LIGHTING** Visa integrates both traditional and contemporary designs with manufacturing and finishing processes that so many have outsourced over the years.
